EXECUTIVE SUMMARY

Flux Technology Africa is pleased to present you with this proposal for an Integrated School Management System. All over the world technology has consistently raised the quality of education and helped, to integrate systems, factions, departments and various stakeholders, it has also enhanced the productivity and performance of such institutions and has helped them maximize their potentials or even recognize them. Implementation of the latest technologies can significantly improve your School's operations, employee productivity, and student/Parent satisfaction. By installing the right system, institutions are able to offer the “wow” factor and deliver the key functions that make life easier for administrators, parents, students and other stakeholders.

With our requisite experience in the educational sector, we are confident that our System will effectively address your needs. Our goal is to automate your School's operations or upgrade your old system to a more robust system by implementing an Integrated School Management System to you at cheaper cost with lots of Cost options.

PRODUCT INTRODUCTION

The website provides a highly personalized portal- based solutions that captures the school processes and makes all operations (Students Finance, Admission and Records, Continues Assessment, Terminal Reports, etc) accessible and managed via the web, thus allowing you to effectively serve all stakeholders: students, parents, teachers, administrators, and etc. This solution is based on portal technology, which enables the greatest possible flexibility and personalization. It is an integrated solution that combines systems to serve a wide range of key audience and stakeholders of various Schools.

In clearer terms, what a portal-based solution does, for example, is that by creating a password, a student, an administrator or a teacher will have a web platform where he or she can perform duties only applicable to his or her profile at any time. This means that school's administrators will have a wide access of the system and control all the various activities.

School Administration

- i. Class Management
- ii. Subject Management
- iii. Programs Management
- iv. Dormitory and House Management
- v. Classrooms Management
- vi. Signature automation
- vii. Academic and Attitudinal remarks automation

Student Finance

- i. Itemized Student Bills Management
- ii. Scholarship Management
- iii. Student Permit
- iv. Student Fees Payment and Other Payments
- v. Expenses
- vi. Student Balances

PRODUCT INTRODUCTION

Financial Features

- i. Student's financial Details
- ii. Student Bills
- iii. Class Debtors
- iv. Class Full Payment
- v. Current balance list
- vi. Print student Bills in bulk
- vii. Debtors List
- viii. Full Payment Details
- ix. The Day's Collected Fees Details
- x. Payment Summary
- xi. Other payment Details

Admission & Records

- i. Student Admissions
- ii. Teachers Management
- iii. Continuous Assessment
- iv. Grading System
- v. Automatic Terminal Report Remarks Management
- vi. Student Status Management
- vii. Teachers and their subjects Management
- viii. Student & Staff Attendance Records

Records report

- i. Student Demography
- ii. Students' Terminal report
- iii. Academic report
- Iv. Students Status History
- V. Students Assessment Records

PRODUCT INTRODUCTION

- vi. Classes History
- vii. Class List
- viii. Admission List
- ix. Teachers' report
- ? Library
 - i. Library Administration
 - ii. Cataloging
 - iii. Circulation
 - iv. Borrowed Books List
 - v. Overdue Books
 - vi. Book Usage History
- Stores
 - i. Inventory

Why You Should Consider Implementing mySchool mySchool makes it possible to:

- * Manage all school's Dormitory, Subjects, Classrooms, and Programs of study
- * Locate teachers, subjects, classes and students in few seconds
- * Print Teachers and subjects they teach for any term or academic year
- * Know all class teachers for any academic year
- * Print Class lists, student in a particular program, level, status, house, etc
- * Terminal Reports with subject, class and level positions and an auto generated academic, attitude ,conduct, etc remarks
- * Print statements of accounts, exam permit, dormitory of residence report and many others.
- * Know all student debtors at a click of a button

PRODUCT INTRODUCTION

- * Print Student Bills, Class Bills, etc
- * Add Additional Fee Items to a student, gender, house or level's bill
- * Student Academic History from Admission year until now
- * All Students under scholarship for any academic year
- * Student's admissions list, Number of Students Admitted for any academic year
- * Manage the School, from the library to Stores.
- * Revoke or Grant access to information.
- * Directly monitor performance of Class and Student.
- * Get access to information easily.
- * Manage the School from a central point.
- * Parent Access to Ward's Info.
- * Class attendance records, etc
- * Statistics on School growth rate
- * Statistics on Scholarships

Usefulness of the system Highlight

- *The systems eco and user-friendly, zero-paper processes in all levels, not only does it help make management of a school easy, it also gives a competitive edge over its competitors and reduces cost.
- * The Principal and Management will get more control over operation and the processes in the school, eg Fee accruals, Stores, library, etc
- * Automates and integrates all processes in the school for better efficiency and flexibility.
- * Records Office can easily configure subject wise lesson plans. This will help them monitor academic progress during the current term/year.
- * Spring Leader Montessori School can easily be configured to comply with the rules and the regulations of the school in relation to Admission process, examinations, assignments , student promotion, attendance etc.
- * It ensures that the reports are informative, precise and comply with the school's requirement.
- * Student/Pupil and teachers can view their personals, financial and academic information through the system.

PRODUCT INTRODUCTION

System flexibility

- * Web based interface which will reduce the requirement of support at all location where the software runs.
- * No need for separate installation in every node you want to run this software.
- * Centralized data storage for easy backup & restoration
- * Excellent Role based security for users to prevent from data malfunctioning possibilities.
- * Highly cost effective in terms of required hardware & human resource.

Scalability

Our system will be able to accommodate any future business growth. We invest heavily in engineering and develop new product features and enhancements regularly. We stay abreast of new technologies and make sure our customers do too, particularly those customers with fast-growing businesses; our software has the capacity to grow with you.

Customer Service

- * First class service: Our Customer commitment is reflected in overwhelming performance and excellent reliability that will protect, grow, and expand, the unique value of your business assets.
- * 24/6 support: This explains why our customers are loyal to us and our clientele keep on growing over the years because at Spring Leaders Montessori School, we provide 24/6 support service to our cherished customers.
- * Client Input: Telligent will base on the requirement of our client to build the system and we will need your unquestionable support and assistant when the need arises.

Performance

- * The system design and platform utilizes the latest developments in computer technology. The system has a graphical user interface, it is fully web based, user friendly, and includes a report writer for user-designed reports. The software is technically stable and virtually bug-free

TERMS OF PAYMENT

All equipment, Software and general costs (e.g. travel expenses), and man-hour used to implement Spring Leaders Montessori School will be billed. This proposal provides an estimate of the total costs.

The mode of payment: Minimum of 50% of the total agreed cost must be paid before the development of the school management system will begin. And the balance is to be paid immediately after completion of the platform.

A discount of 5% shall be applied to early payment (Within the first day the invoice is issued).

Payment must be remitted by bank wire or online payment and must be made payable to Flux Technology Africa.

CONCLUSION

Flux Technology Africa is confident that our proposed Integrated School Management System will help reduce the challenges you are facing in running the school. We sincerely hope that you will consider Flux Technology Africa as a long-term partner and allow entering into a mutually beneficial relationship. We are available to answer your questions and we look forward to discussing this opportunity further.

After reviewing this document, the following steps should be performed in order to come to a final agreement.

- submission of questions/ suggestions

- counter proposal or approval by your school

We declare this offer to be binding and free of error or omissions. Due diligence has been performed in order to ensure compliance with the educational requirements. We agree to hold our proposal open for acceptance after few days of receiving.

Thank you for your interest.

Sincerely,

Marketing Department

Flux Technology Africa

At Flux Technology Africa, We understand your Industry, we understand your IT Challenges.
